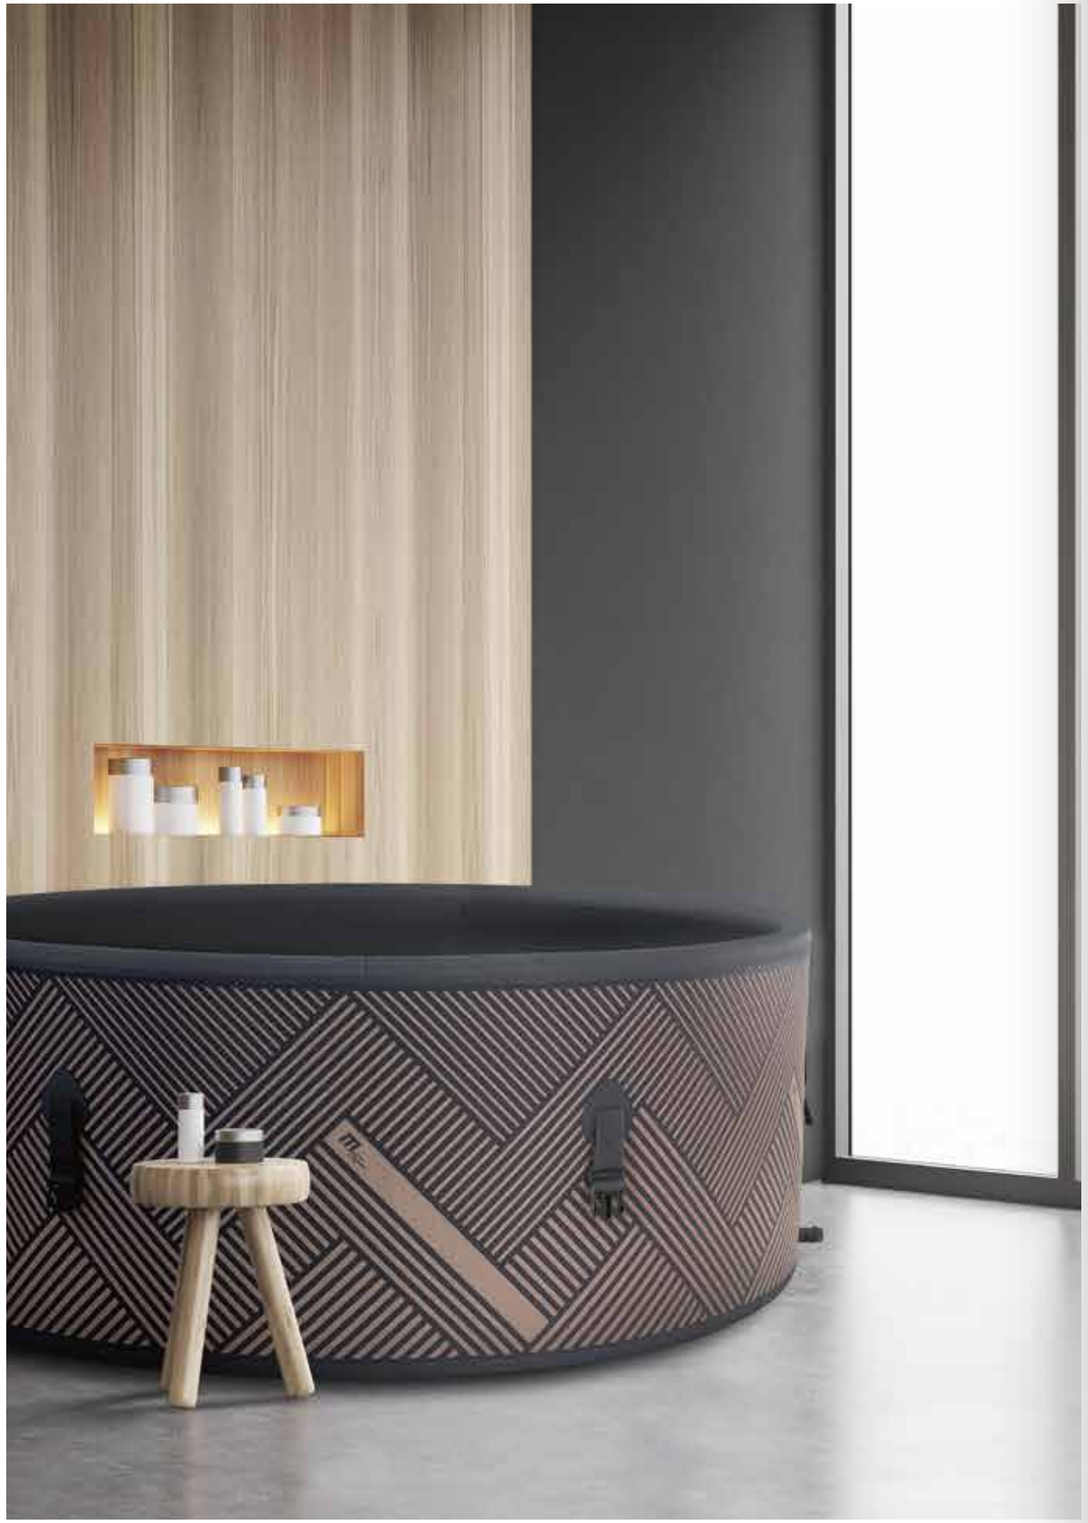
MOMENT



CONCEPT

SERIES

The new CONCEPT collection combines revolutionary design and legendary performance. The super stiff DWF material and brand new all-in-one external control box offers a fresh contentment for its contemporary exterior and user-friendly experience. It is more than just a hot tub.

MONO 4P/6P

ELITE

SERIES

Equipped with multi-individually adjustable hydromassage jets and more than one hundred effervescence air jets, the new ELITE Collection delivers one of our best hydromassage experience. Stylish elegance is provided by Rhino-Tech™ fabric and luminous printing.

RÊVE 4P

BLISS 6P

BAIKAL 4P

PREMIUM

SERIES

The PREMIUM bubble spa treatment is designed to deliver a holistic, full body experience. Warm air is pushed through the 360-degree staggered air jet design, creating thousands of bubbles. Just enjoy being surrounded and massaged by bubbles completely.

MONT BLANC 4P/6P

SOHO 6P

CAMARO 4P/6P

EXOTIC 4P/6P

TUSCANY 4P/6P

DELIGHT

SERIES

MSpa DELIGHT collection offers a basic air bubble massage by delivering thousands of bubbles that thoroughly massage the body for an invigorating experience. The strategic placement of the air jets on the lower perimeter of the spa creates a bathing experience that stimulates the release of muscle tension.

ALPINE 4P/6P

SILVER CLOUD 4P/6P

STARRY 4P

AURORA 4P/6P

NEST 2P

Anti-icing system NEW

In most occasions, it is suggested not to leave or set up the spa when the outdoor temperature is below 4°C (39.2°F).

What happens if the temperature suddenly drops off but no one's at home? Or what if the users just want to take a break and will go back to the spa sometime later?

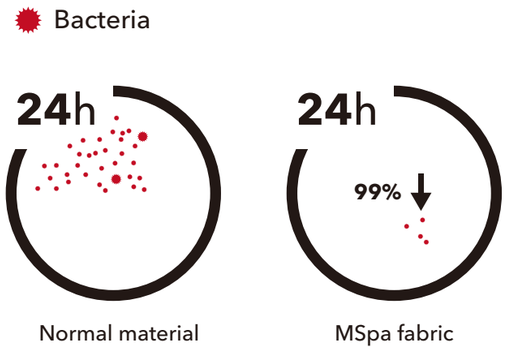
The brand new ANTI-ICING SYSTEM will be the watcher of your spa, to guard the temperature safe line. When the water temperature is lower than 1°C (33.8°F), the heater runs automatically until the water is heated up to 3°C (37.4°F). This will help prevent water from freezing. The circulation system, pump and pipe will be saved.

Antibacterial fabric NEW

Caring and Clean

Clean water is the most essential foundation of hydro massage. With tender care for its users, to further enhance the sterilization performance, antibacterial fabric is applied to the inner liner of MSpa.

The fabric can release bactericidal component, which will help reduce 99% of the reproduction of bacteria. This conforms to ISO 22196:2011



ALL-IN-ONE CONTROL BOX

Everything is at your fingertips

(for Tuscany / Mono)

NEW

Easy to install as usual, MSpa put it one step further to merge the controller into the upper panel of control box. With the upgraded panel, comes more operation space. Enlarged screen plus slightly tilted design angle makes it easier for users to observe outward while sitting in the spa. All changes are aimed to enhance the user experience. With the brand new all-in-one control box, everything is at your fingertips.

Waterproof Smart touch User-friendly

The display panel and control box shell are seamlessly connected, which will eliminate the rain penetration when placed outdoor. Uphold MSpa's consistent design aesthetics, the panel has an elegant appearance. With its dark gray display screen, all numbers are clearly shown even with interference by the bright sunshine.

WIRED CONTROLLER

The MSPA control panels have been upgraded to the newly designed wired controller which can be stored outside of the tub. You can use the integrated wired controller to easily access all the functions by just one hand without installing an extra control panel. We've minimized the setup process to kick off the joy moment in a quickest way.

Waterproof Smart touch User-friendly

TIMER FUNCTION

- LESS WAITING, MORE ENJOYMENT

Want to get the warm and cozy MSPA just ready when you exactly want it to be? Not a problem at all. Now you can easily set the time to wake up the Spa and start to heat the water. Featuring the newly designed integrated chip, the wired controller allows user to set time to turn on the heating function in next up to 99 hours .

CHILDREN SAFETY LOCK

The entire line of MSpa is equipped with the children safety lock allowing parents to lock the hot tubs when their children may access. In children safety mode, the controller is locked and all buttons will not work. The spa will perfectly remain its previous status.

PLUG AND PLAY TECHNOLOGY

PATENTED

Place your hot tub anywhere... your back yard, patio or tote it along in your RV. No time-consuming installation.

Benefiting from the patented self-inflation function, you just need to simply remove the spa from its box, plug in, rotate the knob, long press the button " BUBBLE ", and watch your spa to be inflated in minutes!

WHISPER QUIET DESIGN

Spa With Built In *"Shhh"* Feature

Technology Challenge

SILENT SYSTEM | ENDURANCE | ENERGY SAVING

With more demands for portable and comfortable spa, spa design has been challenged to a new height. As the leader in the inflatable spa industry, MSpa continues innovation, challenging the technology and design. Starting from basic function again, with energy consumption in mind, and super quiet spa idea, we introduced the new Whisper Quiet Feature.

PTC HEATING TECHNOLOGY

MSpa has applied the PTC (Positive Temperature Coefficient) technology on all spa products. It provides you with a warm and comfortable spa experience and ensures a quick heat-up function.

PTC TECH HEATING

1. High Efficiency Ceramic Heating Technology
2. Higher Heating Performance Compared to Stainless Steel Heating Element
3. Energy Saving And Low Cost of Operation
4. Longer Service Life
5. MSpa PTC Patent
6. Five Key Safety Protection
   - i. Heater Protection
   - ii. Temperature Assurance
   - iii. Maximum Temperature Protection
   - iv. Double Insulation Construction
   - v. Grounding Protection for Core
   - vi. Total Disconnection of Water And Electricity

HYDROMASSAGE JETS

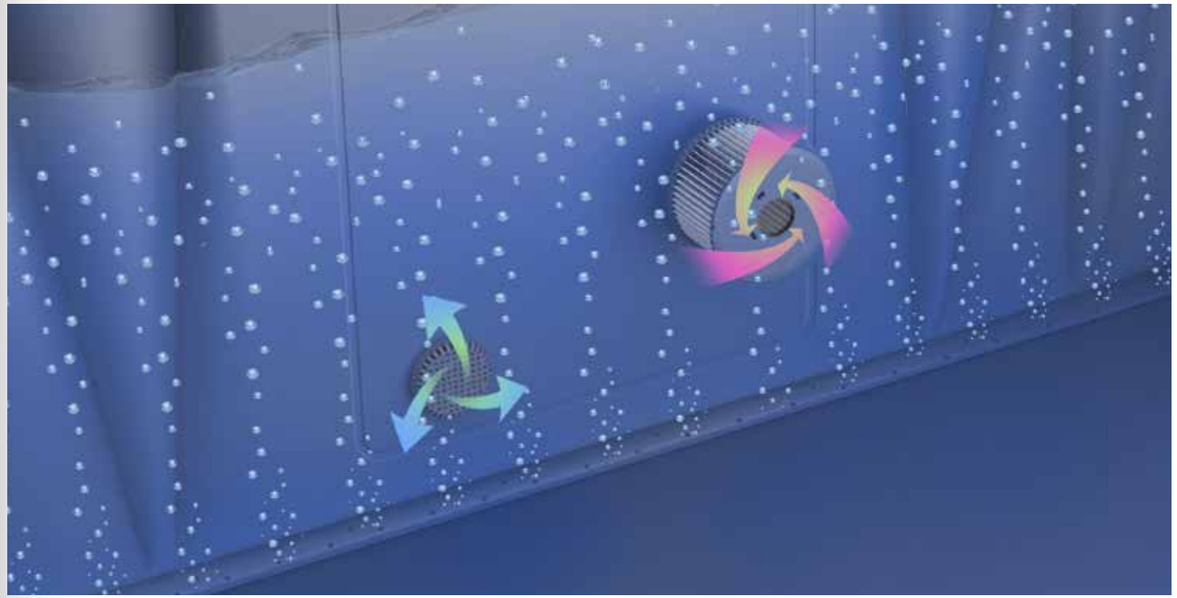
The hydromassage jets, equipped in the Elite Series, offer an invigorating water massage with adjustable directions and levels. It also improves sleep by relieving pressure on the body's joints and muscles, which reduces night-time discomfort.

O_3 OZONE GENERATOR

Integrated ozonator is the exclusive feature in the PREMIUM, ELITE and CONCEPT series products. The ozone sanitation is the most cost-effective natural method to kill harmful organisms in your spa while reducing the need of chemicals.

ALL AROUND BUBBLING DESIGN

Proprietary 360-degree airjet system fills the spa with thousands of bubbles, staggered jets push bubbles into the center of the spa, creating a balanced, all-encompassing body massage. Now you can customize the bubble experience through the adjustable 3 levels of intensity in the PREMIUM, ELITE and CONCEPT series products.



SMART FILTRATION

Advanced 4-hour auto-filtration function with the new filter cartridge featuring 90 pleats, and a filtration area of 0.3m^2 which is the most efficient filtration system in the market.

FILTER CARTRIDGE CHANGING REMINDER

To ensure the best quality of water in the spa, the MSpa controller is equipped with the filter cartridge changing reminder, so that you won't forget to change the filter cartridge every 150 hours.
