FRAME

The FRAME collection combines revolutionary design and legendary performance.

MUSE

Equipped with JET function, MUSE Collection delivers one of our best hydro-massage experience.

URBAN

Wondering how easy spa inflation can be? The URBAN collection is the perfect answer.

PREMIUM

Featuring the removable cover design, PREMIUM collection has the possibility to bring all wild design concept into reality.

COMFORT

COMFORT collection offers all the essential functions to enjoy a hydro-massage. Bubbling will relieve all tensions.

THE SMARTEST INFLATABLE HOT TUB EVER.

To make products smarter and more considerate, to allow users to reduce tedious operation and maintenance, this is the driving force behind the development of MSPA. Let's meet the new generation!

■ INTELLIGENT ■

M-ONE AUTO INFLATION

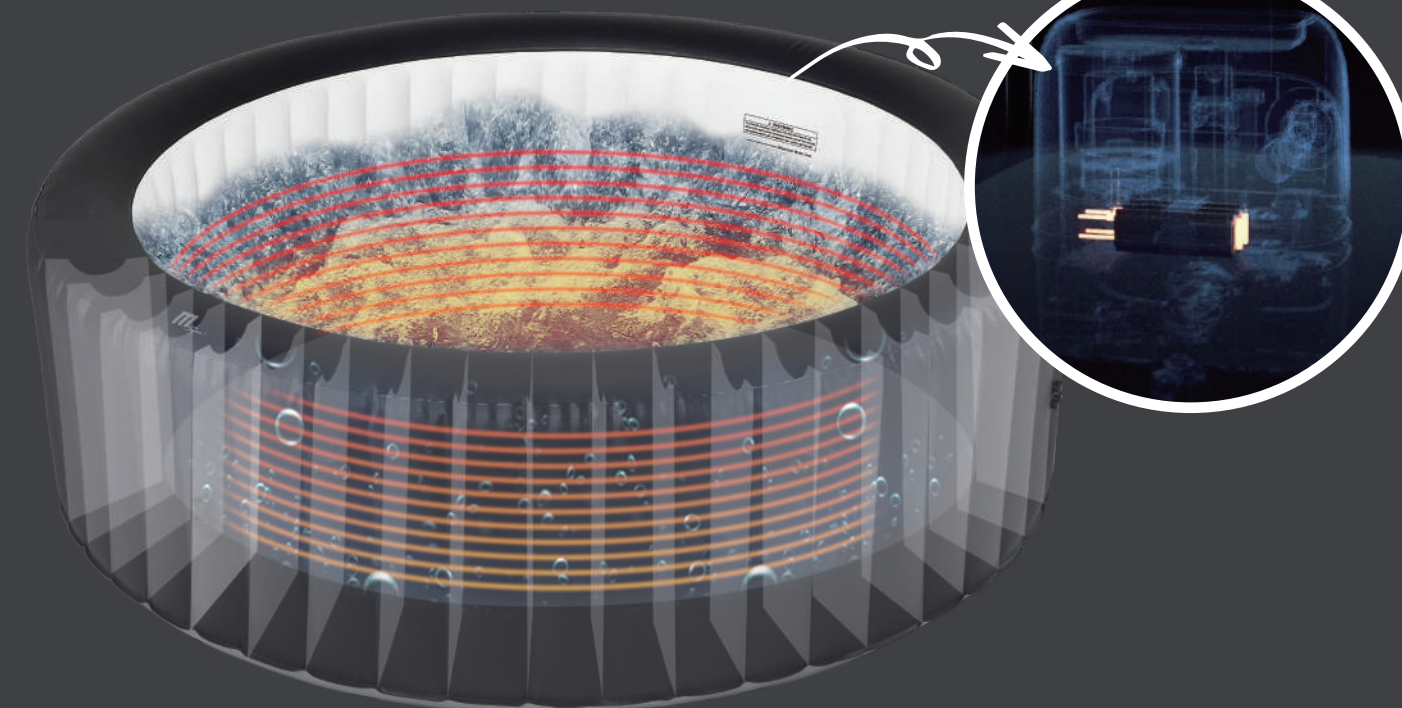

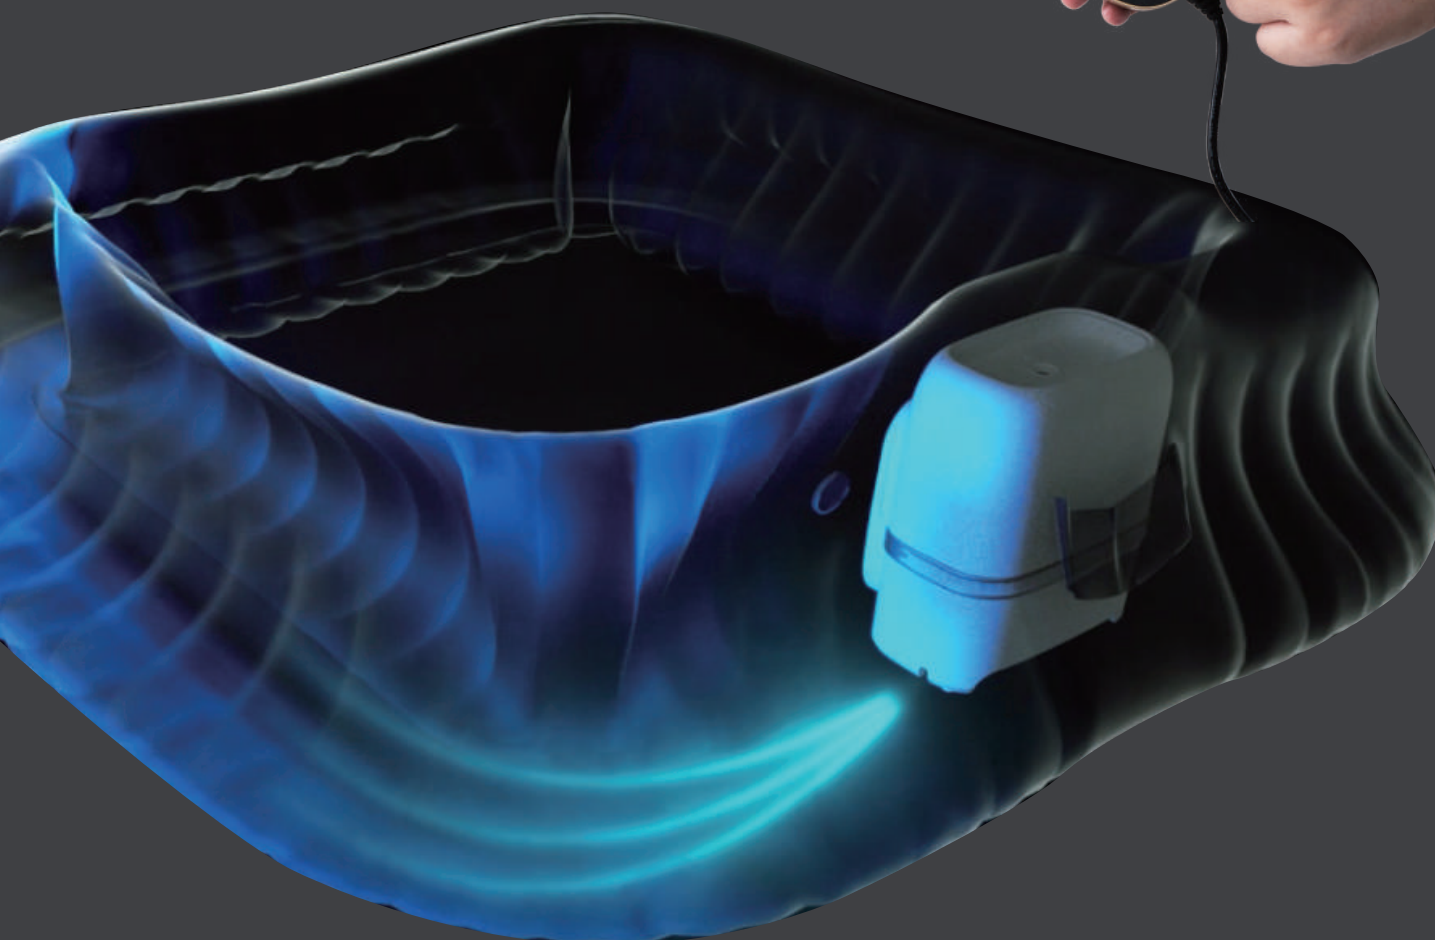

From simpler to the simplest

This is a truly innovation that makes MSpa the only inflatable hot tub that will get people satisfied before stepping into it.

From unboxed to well installed, the only thing you need to do, is to press the button for just one time. The spa will automatically start and stop inflation. You are free to leave the spa, treat yourself with a cup of coffee, send a twitter, make a phone call, or whatever you want to do.

The integrated gauge will constantly monitor the air pressure and stop inflation automatically when ideal pressure level is reached. No need to read the manometer. No risk of over inflation.

TIMER FUNCTION

- LESS WAITING, MORE ENJOYMENT

Want to get the warm and cozy MSPA just ready when you exactly want it to be? Not a problem at all. Now you can easily set the time to wake up the spa and start to heat the water.

Featuring the newly designed integrated chip, the wired controller allows user to set time to turn on the heating function 1-99 hours in advance.

ANTI-ICING SYSTEM

It is suggested not to leave or set up the spa when the outdoor temperature is below 4°C (39.2°F).

What happens if the temperature suddenly drops off but no one's at home? Don't worry, MSpa will take care of itself. When the water temperature is lower than 1°C (33.8°F), the heater runs automatically until the water is heated up to 3°C (37.4°F). This will help prevent water from freezing. The circulation system, pump and pipe will be saved.

SMART FILTRATION

When the spa is at stand-by mode, the filtration system will be automatically turned on for 60mins after every 4 hours. This is to make sure the water is clean even when spa not in use.

To ensure the best quality of water in the spa, the Mspa controller is equipped with the filter cartridge cleaning reminder, so that you won't forget to clean or change the filter cartridge every 150 hours.

ENJOY THE MOMENT

■ HYGENIC ■

UVC

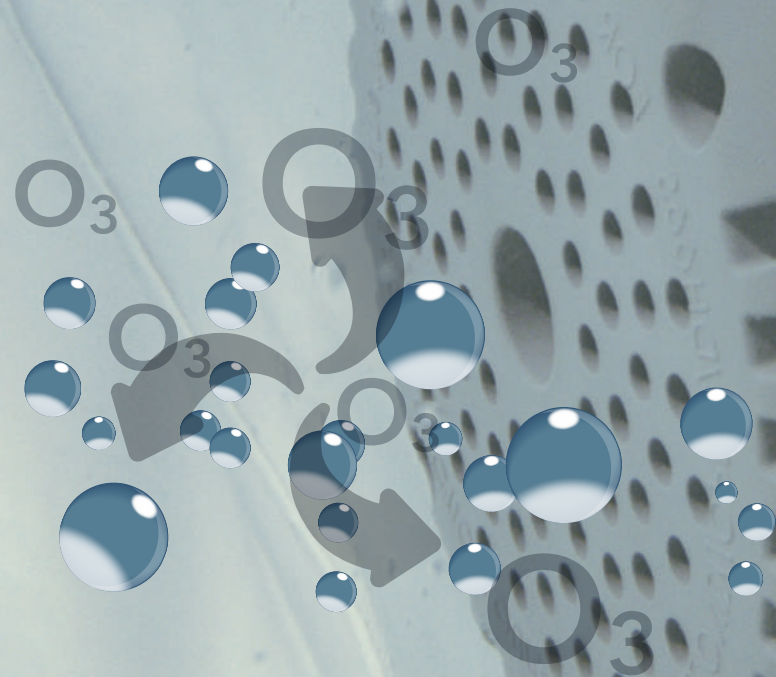

The new Mspa collections come with the built in UVC sanitizer which is able to kill more than 60 disease-causing microorganisms and pathogens while using nothing more than light.

A mini sterilization chamber with a UVC LED bead is put into the built-in control box so every drop of water in an MSpa hot tub is under 7days 24hours non-stop protection with or without people in the spa. The UVC LED will not harm your skin or eyes as it is completely sealed inside the control box.

TECHNOLOGY

OZONE KILLS ODORS & BACTERIA

To keep your hot tubs water clean is the top priority for us. MSPA hot tubs featured built-in O₃ OZONE GENERATOR, it's incredibly helpful to kill bacteria as well as Giardia, Cryptosporidium, parasites, fungi, molds and other virus and microbes. It is 50 times more effective than chlorine, and the effects of its action are visible 3,000 times faster. Turn on the O₃ OZONE GENERATOR before and after using a hot tub. Keep you and your water healthy for soaking! It's the smart thing to do.

■ CONSIDERATE ■

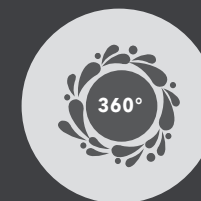

WHISPER QUIET DESIGN

Enjoy your own peaceful moment! MSpa has developed a silent motor. The internal control box is wrapped by spa pool liner, which also helps to absorb and reduce noise.

Portable

Featuring the built-in compact pump, MSpa is super light weighted and portable. It can be easily packed into the trunk of your car, or lifted by females.

ALL AROUND BUBBLING DESIGN

Proprietary 360-degree airjet system fills the spa with thousands of bubbles, creating a balanced, all-encompassing body massage. For high end series, the bubble speed has three level to adjust. Everyone can build their personalized experience.

CHILDREN SAFETY LOCK

The entire line of MSpa is equipped with the children safety lock function, allowing parents to lock the hot tubs when their children may access. Simply pressing UP & DOWN button for 3 seconds to activate the function.

FABRICS & FINISHES

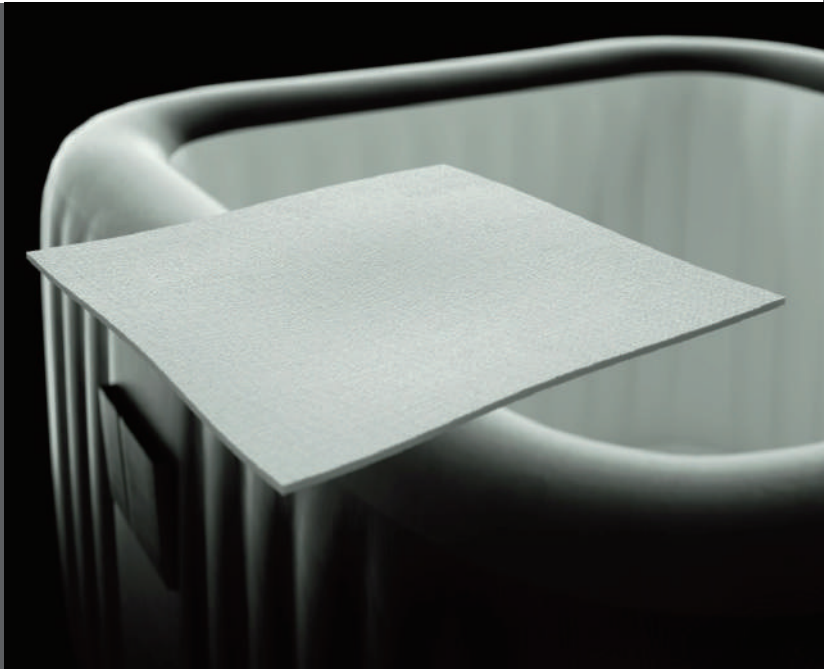

Mspa products offer an elegant and fine array of spa fabric and finish, each one conceived by our professional designers, allowing the spa owners to show their spa tub to reflect their home or life style.

ANTIBACTERIAL FABRIC

CARING AND CLEAN

Clean water is the most essential foundation of hydro massage. With tender care for its users, to further enhance the sterilization performance, antibacterial fabric is applied to the inner liner of MSpa.

The fabric can release bactericidal component, which will help reduce 99% of the reproduction of bacteria. This conforms to ISO 22196:2011

NON-SLIP BOTTOM

EVERY DETAIL MATTERS

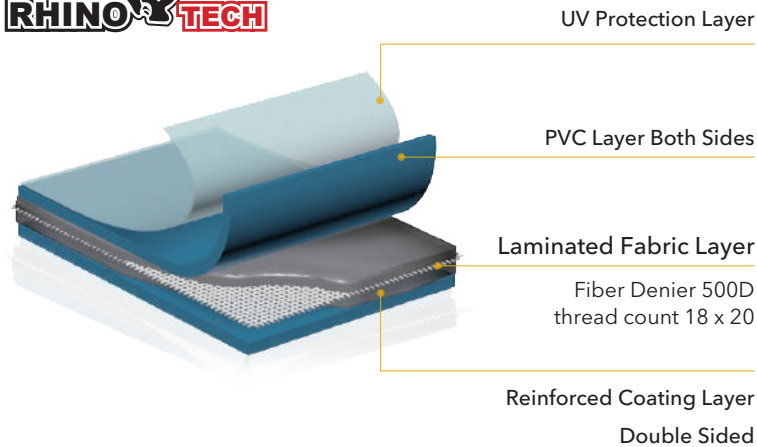

MSpa believes every detail matters, even somewhere consumers won't see. A regular bump texture material is applied to provide additional friction, to improve the grip. The non-slip bottom can also effectively reduce the greasy film and scale formed by microorganisms.

Based on those two factors, the new material bottom can prevent falling. Delight as always, safer than ever.

RHINO-TECH REINFORCED PVC COVER FABRIC

1. UV, Frost and Tear Resistant
2. Durable and Tough Reinforced PVC
3. User Friendly
4. Appealing Look
5. Eco-friendly
6. Supported by MSpa Warranty

ENJOY THE MOMENT

FRAME SERIES

FRAME SERIES

The FRAME collection combines revolutionary design and legendary performance. Super stiff DWF materials and plastic wood materials are applied to the spa tub body, resembling traditional bathtubs. Relying on the modern appearance and friendly user experience, the FRAME collection provides users with fresh satisfaction. It is more than just a hot tub.

ENJOY THE MOMENT

ALL-IN-ONE CONTROL BOX

EVERYTHING IS AT YOUR FINGERTIPS

Easy to install, lovely to touch. The upgraded all-in-one control box perfectly combines excellent performance with an elegant look.

Enlarged screen plus slightly tilted design angle makes it easier for users to observe outward while sitting in the spa. The display panel and control box shell are seamlessly connected which will eliminate the rain penetration when placed outdoor.

Uphold MSpa's consistent design aesthetics, the panel has an elegant appearance. With its dark gray display screen, all numbers are clearly shown even with interference by the bright sunshine.

Waterproof

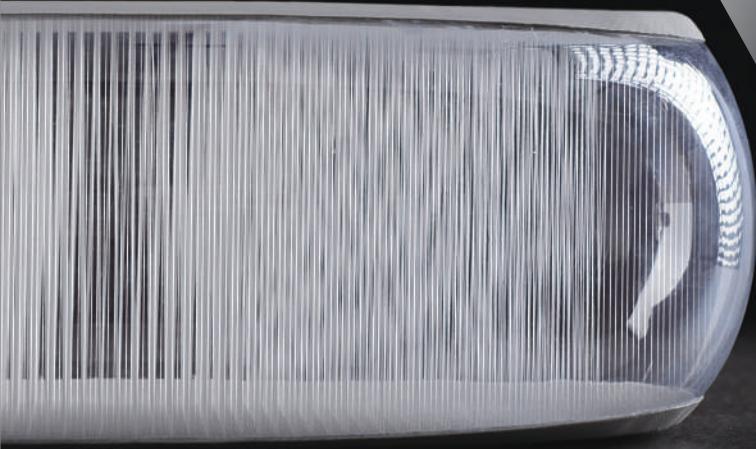

Smart touch

User-friendly

Featuring the super stiff DWF material, MONO is presenting an unprecedented exterior design with excellent durability and unbelievable light weight. This is a true piece blending classic style with contemporary touches.

The plastic wood material is rigid and more creative, making it possible to form shapes that would be difficult to achieve in an inflatable spa. The metallic silver color scheme is very attractive and provides a fresh outdoor look.

MUSE SERIES

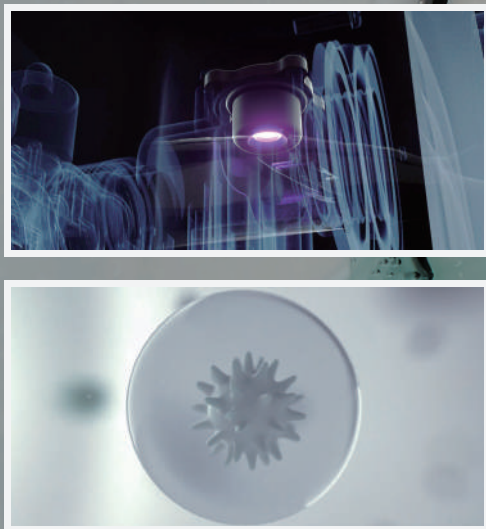

Equipped with multi-individually adjustable hydromassage jets and more than one hundred effervescence air jets, the new MUSE Collection delivers one of our best hydromassage experience. Stylish elegance is provided by Micro MSpassima Rhino-tech.

ENJOY THE MOMENT

HYDROMASSAGE JETS

The hydromassage jets, equipped in the MUSE Series, offer an invigorating water massage with adjustable directions and levels. It also improves sleep by relieving pressure on the body's joints and muscles, which reduces night-time discomfort.

UVC & OZONE: Seamless protection

In MUSE/URBAN collection, both UVC and OZONE functions are applied. These two functions are complementary.

UVC only kills bacteria in the water flows through the sterilization chamber, while OZONE can be conveyed to the water inside the spa pool, actively contacts and kills the bacteria.

Ozone kills bacteria faster than UVC, but it cannot be activated when people is soaking into the water, while built-in UVC can always be activated.

M-ONE AUTO INFLATION

The smartest inflatable spa EVER.

Brand new experience of getting ready for a hydro-massage! Release your hands, enjoy a cup of coffee while watching your spa stand up by itself!

Press BUBBLE & UP button for inflation.

- AUTO detect the air pressure;
- AUTO stop the inflation.

VITO

Featuring a BURNT UMBER reinforced PVC material with embossed EPI leather, lined with a brilliant white inner wall, VITO is neat and elegant. Setting an enviable backyard will be effortless with this spa in tow.

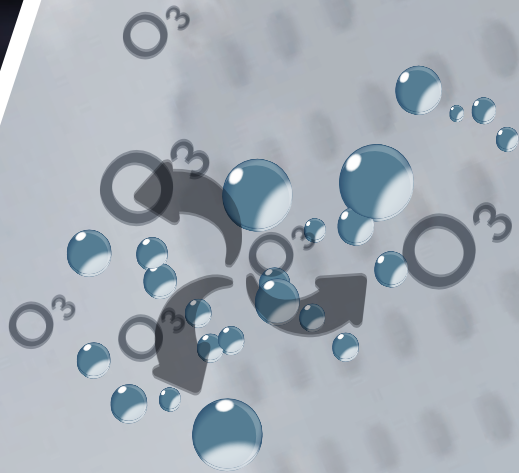

PREMIUM SERIES

The PREMIUM bubble spa treatment is designed to deliver a holistic, full body experience. Warm air is pushed through the 360-degree staggered air jet design, creating thousands of bubbles. Just enjoy being surrounded and massaged by bubbles completely.

PLUG AND PLAY TECHNOLOGY

Place your hot tub anywhere... your back yard, patio or tote it along in your RV. No time-consuming installation. Benefiting from the patented self-inflation function, you just need to simply remove the spa from its box, plug in, rotate the knob, long press the button "  ", and watch your spa to be inflated in minutes!

OZONE KILLS ODORS & BACTERIA

As we try to avoid coronavirus, the way to keep your hot tubs water clean is the top priority for us. For our users. MSPA hot tubs featured build-in O3 OZONE GENERATOR, it's incredibly helpful to kill bacteria as well as Giardia, Cryptosporidium, parasites, fungi, molds and other virus and microbes. It is 50 times more effective at chlorine, and the effects of its action are visible 3,000 times faster. Turn on the O3 OZONE GENERATOR before and after using a hot tub. Keep you and your water healthy for soaking! It's the smart thing to do.

COMFORT SERIES

COMFORT SERIES

COMFORT collection, just like its name, offers a easeful air bubble massage by delivering thousands of bubbles that thoroughly massage the body for an invigorating experience. All models in this collection bear the latest UVC function, to make sure you enjoy a clean and healthy water massage.

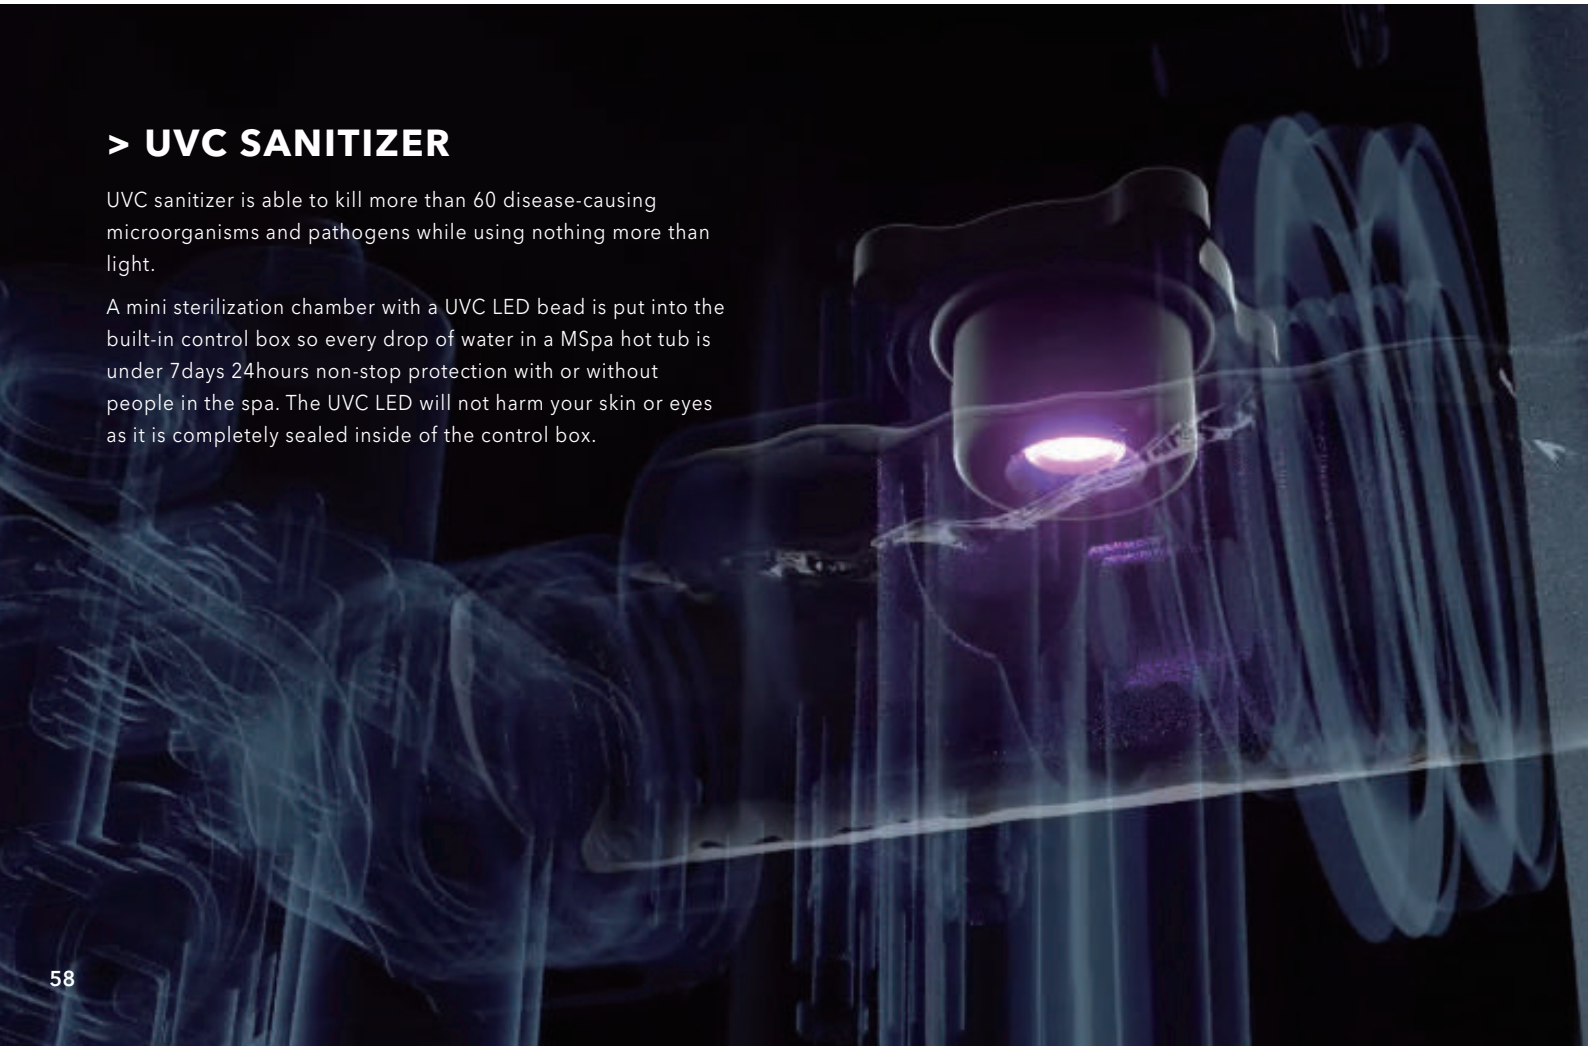

> **SUPER LIGHT WEIGHTED**

All COMFORT models are applied with the new compact control box. It effectively reduces the weight of the whole spa package, making it super light weighted. All models weighs below 28kg.

> **QUICK INFLATION**

COMFORT collection use inflation hose for a quick inflation. Internal control box is preinstalled before delivery. No need to connect a 20kg control box to the tub! The whole process can be completed within 3 mins.

> **UVC SANITIZER**

UVC sanitizer is able to kill more than 60 disease-causing microorganisms and pathogens while using nothing more than light.

A mini sterilization chamber with a UVC LED bead is put into the built-in control box so every drop of water in a MSpa hot tub is under 7days 24hours non-stop protection with or without people in the spa. The UVC LED will not harm your skin or eyes as it is completely sealed inside of the control box.
